NEXUS-OS

The Future of Education in Africa

Intelligent School Management

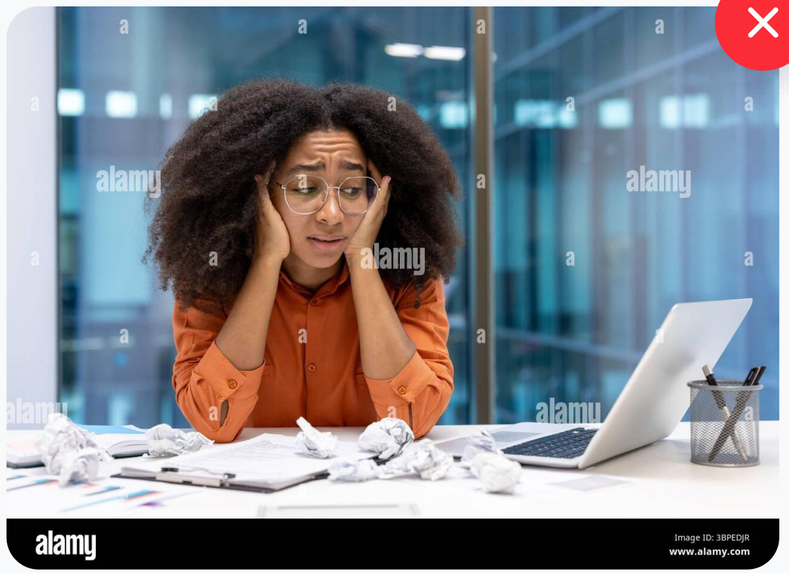

AI-Powered

Built for Africa

Transforming Nigerian Schools Since 2026

The Challenge

African Schools Deserve Better Than Paper Chaos

Teacher Overwhelm

Hours lost to manual grading, attendance tracking, and report preparation

Data Disorganization

Student records scattered across files, impossible to retrieve quickly

Payment Nightmares

Cash handling risks, reconciliation errors, and delayed fee collection

Administrative friction is slowing down education.

Nigerian schools lose **15+ hours/week** to manual processes

The Solution

Intelligent School Management

Empowering Schools

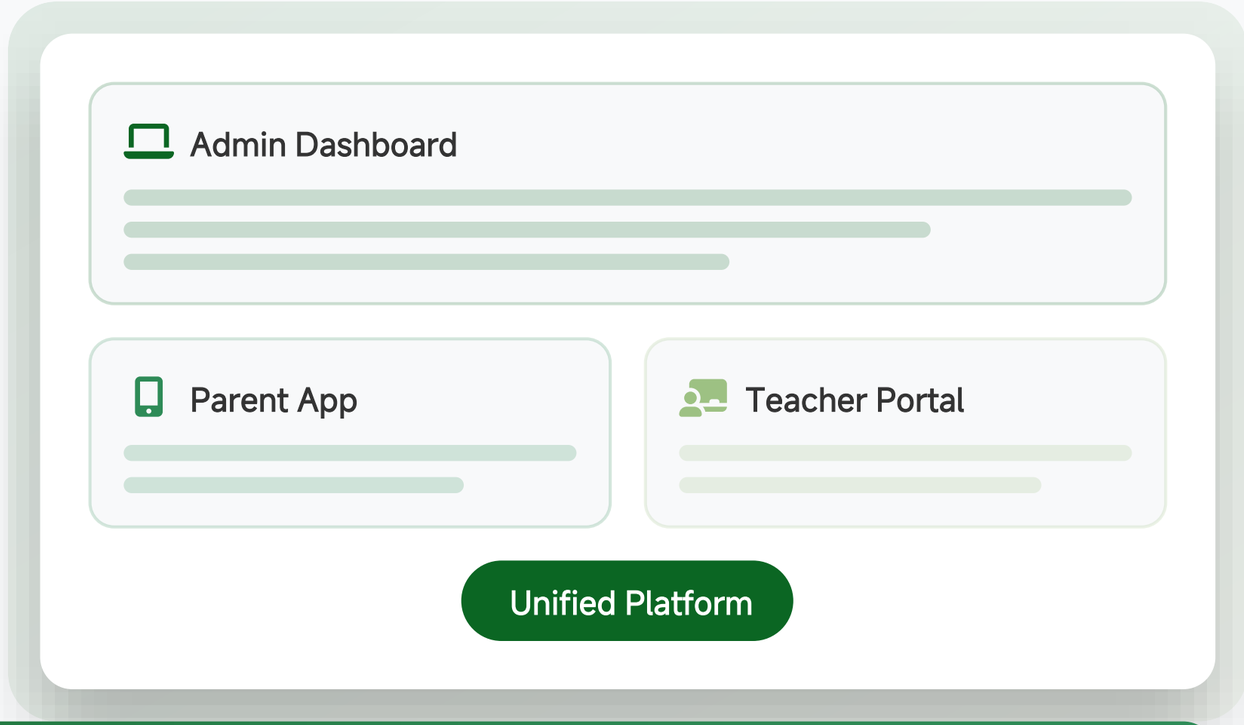

Streamlined operations, automated workflows, and real-time insights for administrators

Engaging Parents

Instant notifications, fee payments, and academic progress tracking at their fingertips

Elevating Students

AI-powered tutoring, exam preparation, and personalized learning paths

Comprehensive, cloud-based, designed specifically for African institutions

100%	24/7	Zero
Cloud-Based	Access	Installation

Why Nexus-OS?

Built for Africa

Designed from the ground up for Nigerian schools

Works with Limited Internet

Offline mode syncs when connected. Designed for areas with unstable connectivity.

WAEC-JAMB Prep

Built-in CBT platform mirrors national exam format. Thousands of practice questions.

Paystack Integration

Seamless payment processing. Parents pay fees instantly via card, bank transfer, or USSD.

Mobile-First Design

Works perfectly on smartphones. No expensive computers required for teachers or parents.

Curriculum Aligned

Pre-loaded with Nigerian curriculum standards. Report cards match official formats.

Local Support

Nigerian-based support team. Available via phone, WhatsApp, and email in your timezone.

The Only System Truly Built for Nigerian Schools

Not adapted. Not translated. Purpose-built.
